

## CONSULTING

*"I don't know how to implement this solution? Where do I start? How do I organise myself?"*

The MOBITEACH team defines with you your training strategy or more specifically your different learning strategies integrating our intelligent solution of virtual and face-to-face classrooms.

## ACTION TRAINING

*"How can I empower my teams to create their own training sessions?"*

The MOBITEACH team develops the operational skills of your employees by accompanying them on the phases of pedagogical design and multimedia production with our MOBITEACH tool.

## PRODUCTION

*"Can I outsource the production of MOBITEACH training sessions?"*

The MOBITEACH team has an internal team capable of offering you a differentiated approach, using agile methods and techniques.

## ASSISTANCE

*"What happens next? Am I going to be alone with my questions and problems?"*

When you have a MOBITEACH license, the team manages all your requests, whether they are questions of use or incident management, whether in project or production mode.

## OUR SUPPORT

Thanks to our experience in digital learning engineering, for distance or face-to-face training, we can advise you on the choices best suited to your training objectives.

We co-construct your learning device using our agile, involving and collaborative methodology.

Our team supports you throughout your project, with caring, listening and availability.

## A TAILOR-MADE TRAINING

- Our action'training is adapted to your needs and your business issues.
- Before starting the training, each participant defines a training course to be designed and delivered during a face-to-face or distance session with MOBITEACH.
- The action'training is conducted with small groups for a better involvement and a better follow-up of the trainees.

The action'training on pedagogical reengineering with MOBITEACH.

### Getting started

*A one-hour Webinar  
10 participants*

### Going deeper

*Several one-hour webinars, separated by individual practice inter-  
sessions, 6 participants*

Intersession

Intersession

Intersession

Training creation

- Discovering the main functionalities of MOBITEACH
- Facilitation of a distance training with the MOBITEACH solution

- Going deeper in the use of MOBITEACH
- Creating learning activities with MOBITEACH
- Adapting existing training courses to the use of MOBITEACH both for face-to-face and distance training

## AN ATTENTIVE TEAM

Throughout this action'training, we remain attentive to the learner, during the intersessional period and after the training, to support him throughout his learning in the pedagogical design of his training sessions with MOBITEACH.
